

Sink Putts Safely

SPS Golf

Proudly Canadian

Sink Putts Safely is the no-touch solution for golf during Covid and post-Covid times.

Designed by a PGA of Canada Professional, **Sink Putts Safely** is the simple and durable no-touch solution for retrieving holed putts. **It keeps your golfers safe, facilitates one-time installation and protects each golf hole from damage.** Tried, tested, and proven through 32,000 rounds, SPS is the answer to these challenging times and beyond.

A PROVEN NEW STANDARD

According to Matt Anderson, the owner and operator of Oakridge Golf Club in Port Perry, Ontario, "Sink Putts Safely solved the problem we (all) faced. **Our Head Superintendent called it a "simple, perfect solution" as it didn't interfere with daily set up and actually reduced damage incurred by golfers.** Golfers loved it! Their positive feedback lasted the entire season. Sink Putts Safely is an immediate, affordable solution to safely putt during COVID-19 with the potential to be around for the long game. It's a good news story for Canadian golf."

DEMONSTRATION VIDEO

The Sink Putts Safely device is made from custom injection molded, high impact ABS plastic material with added UV protection. This provides extremely durable, long lasting and trouble free operation.
